

Dura-Post[®] Island Markers

High Impact Island Markers

The patented Dura-Post High Impact Island Markers are designed to withstand pressures from both extreme weather conditions and errant drivers.

The Dura-Post High Impact Island Markers withstand multiple impacts at any angle and return to an upright position after impact. The Dura-Post High Impact Island Markers are tested to withstand over 200 impacts at 97 km/h (60 mph). Installation is easy, using quick-set epoxy to hold the base to the road.

Engineering & Manufacturing Facilities
Rocklin, California & Pell City, Alabama

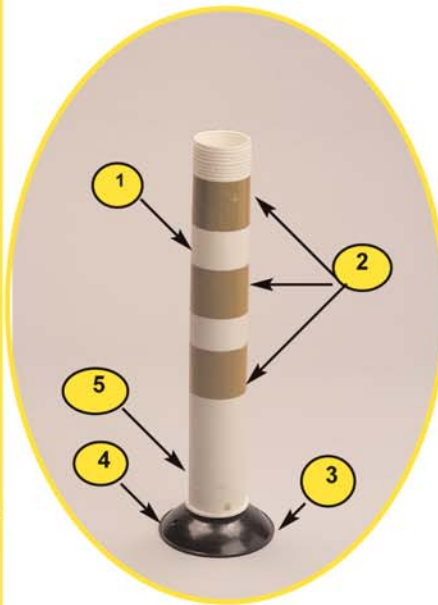

The Q-Marker is 4" x 24" with three" bands of high intensity reflective sheeting.

The K-Marker is 3"x18" with a 15"x6" horizontal panel containing three 3" squares of high intensity reflective sheeting arranged horizontally on the front

4"x21" post with three squares of high intensity reflective sheeting arranged vertically on the front side and one 3" square on the back.

- 1 INJECTION MOLDED URETHANE PLASTIC PORT for flexibility in extreme weather
- 2 REFLECTIVE SHEETING uses high-intensity retro-reflective sheeting
- 3 SURFACE MOUNT BASE made of 50% recycled material
- 4 PIN-LOCK CONNECTION for quick and easy maintenance
- 5 PATENTED TAPERED WALL DESIGN the key to extreme durability
- 6 SOIL ANCHOR

SOIL ANCHOR

Dura-Post High Impact Island Marker Specifications

The following are general specifications for the standard Dura-Post High Impact Island Marker.

Height	K-Marker	45.72 cm	(18 in)
	Q-Marker	60.96 cm	(24 in)
	Vertical K-Marker	53.34 cm	(21 in)
Weight	K-Marker		
	Q-Marker		
	Vertical Marker		
Recycled Content	Post may have up to 25% post industrial regrind.		
	Base may have up to 50% post industrial or consumer grind.		
Diameter	K-Marker	7.62 cm	(3 in)
	Q-Marker	10.16 cm	(4 in)
	Vertical K-Marker	10.16 cm	(4 in)

- Extremely impact resistant
- 360° full visibility
- Patented tapered wall design
- Meets MUTCD
- No protruding metal parts
- One piece post construction
- Withstands extreme temperatures
- Easy installation

SAFETY AND CONVENIENCE TO FIT ALL APPLICATIONS

The Dura-Post High Impact Island Markers can be used as a channelizing device in many applications, including:

- Islands
- Medians
- Round-A-Bouts
- Driveways
